NORFOLK ACADEMY
⊢ 1728 ⊣

Since its 1728 founding, Norfolk Academy has existed for the transformative education and edification of children (and families) in Hampton Roads. Norfolk Academy is a co-educational school for grades 1-12 and employs 50-200 people throughout the year.

POWERED BY TECH, DRIVEN BY PEOPLE

DOMA Technologies (DOMA) was founded in 2000 as a Cloud based document management company. Today DOMA serves a diverse range of Federal and Commercial customers with customized business solutions that include Digital Conversion Services, Cloud Services, and Health-care Information Services.

> **"THE CLOUD BASED DOMA PLATFORM HAS BEEN A GREAT ADDITION TO OUR BUSINESS PROCESS. EMPLOYEES QUICKLY SCAN AND UPLOAD THEIR DAILY DEPOSITS AND CORRESPONDENCE. WE ARE NOW ABLE TO RECONCILE OUR INFORMATION IN REAL TIME."**
>

> **NORFOLK ACADEMY ADMINISTRATOR**

DOMA replaced two on-premise data centers (Richmond, VA and Atlanta, GA) with a single, but fully redundant cloud infrastructure. DOMA completed the migration, and used the following AWS tools and services:

MIGRATION TOOLS:
- AWS Connector for VMWare
- AWS Server Migration Service
- AWS Direct Connect
- AWS Command Line Interface (CLI)

AWS SERVICES:
- AWS Virtual Private Cloud (VPC) with redundant subnets
- AWS Security Groups to restrict/allow certain access
- AWS Identity Access Management (IAM)

CHALLENGE

Norfolk Academy has a long history, and as a result had a massive backfile of over a million paper records in their file room. In order to reduce their paper archive, Norfolk Academy needed a centralized repository for their data that would allow users to begin scanning their own documents into a digital format going forward.

SOLUTION

DOMA developed a customized workflow configuration for Norfolk Academy which included day-forward document conversion, electronic records management, and instant access to digitally stored information and files. With the implementation of DOMA's DX software platform Norfolk Academy employees could now receive monthly document and file performance reports and get end-user technical support.

BENEFITS

Moving to the Cloud has allowed Norfolk Academy employees electronic file archiving and immediate online access to their centrally stored records. Storing content in the Cloud instead of a file room allows for real-time reconciliation of daily deposits and correspondence which translates to improved efficiency and reduced costs for the school. Four additional departments were on-boarded to the DX software platform allowing multiple departments to collaborate more effectively.
