Wide Variety
of Field Types

“45% of form data
is submitted on a
mobile device.”

FORMS MADE EASY

DOMA's DX Forms enables your team to fill out and submit field data anytime anywhere – even offline. Reduce your dependence on paper while improving the accuracy, security, and functionality of your forms. Get immediate insight into your form data with searchable, organized digital forms that upload directly to your DOMA DX site.

- **Work Offline** – gather data, manage all your forms, and access your submissions folder even without an internet connection
- **Robust forms options** including location tracking, barcodes, formula fields, conditional logic questions, and more
- **Automate workflows** – send your team forms with pre-filled data or set up a form to trigger another form to be sent

EASY INTEGRATION

DX Mobile Forms integrates seamlessly with you DX site, meaning you can easily transfer your form information to other workflows within your organization.

Don't be left behind. Relying on traditional paper forms could be costing your business.

MOBILE FORMS ANYTIME, ANYWHERE

DOMA's mobile forms app for iOS and Android is designed to make form data capture simple from anywhere - even offline.

FORMS TO GO
Instant access to your forms from anywhere on your mobile device. Use your devices at events or in the field to collect contacts, complete invoices, fill out inspection reports, and more.

DX8 FORMS PRICING

DEVICE LICENSING\$40

Licenses are device specific meaning that you will need to purchase a license for each mobile device you would like to use. Add as few or as many devices as you need for \$40 dollars each.

FORM BUILDING \$25-100+

Form price varies by complexity and starts at \$25 each.

BASIC FORM\$25+

Basic forms have straightforward form fields and generally have between 5-15 fields. Basic forms do not have DX integration or conditional logic.

INTERMEDIATE FORM.....\$50+

An intermediate form does not include DX integration but may include up to 35 form fields, calculated fields, and/or conditional logic. With conditional logic the user's answers change which questions appear as they progress through the form.

ADVANCED FORM\$100+

An advanced form includes DX integration if requested and may have more than 35 form fields. Advanced forms may include conditional logic, span multiple pages, or have a wide range of input options for a single question. These forms often integrate with other workflows or include automated reporting.

DX INTEGRATION \$100/hr

If you choose to build your library of forms yourself you can still add on DX Integration and workflow building. Get in touch to receive a quote for your unique project.

DX MOBILE FORMS FUNCTIONALITY

Dispatch - send forms to users out in the field to alert them to new tasks. You can also send forms with pre-populated data and let them fill in the missing information.

Sketch - take photos and draw directly onto them to point out important details.

Unlimited Form Submissions & Storage - Don't hold back! You can submit and store an unlimited number of forms.

Capture Key Data - DOMA mobile forms allows you to attach photos, time-stamps, geotags, and signatures. You can also scan bar codes, build forms with conditional logic questions, or include formula fields for easy invoicing.

Get the Most out of your DOMA Technologies Software Solution.

Minimize the need to scan and manually upload paper forms with this quick, effective solution. DX Mobile forms provides a new, easy to use way to upload content to DX.
