Development Staff

Highly Visible  
Prime Contracts

Cloud-based  
COTS Software

DOMA TECHNOLOGIES | 757.306.4920 | [DOMAOnline.com](http://DOMAOnline.com)

DOMA Technologies (DOMA) was founded in 2000 as a document management company focused on developing and delivering solutions through the internet. As the business environment has evolved and innovation has spurred change in the technology landscape, DOMA has remained committed to the power of the Cloud. Today, a considerable portfolio of government, healthcare, education, and commercial customers demonstrates that DOMA has the experience and infrastructure to deploy integrated solutions that make complex operations simple and meet the requirements of a wide range of federal agencies. DOMA specializes in creating holistic business process improvement solutions through a portfolio of offerings around Digital Solutions, Hyper Automation, and Cloud Services. The core of DOMA's business today is deployment of systems and services to automate the processes around data capture and extraction, machine learning, workflow management, predictive analytics, and cloud document storage. The processes, workstreams, technology, and analytics that drive over two decades of success has positioned DOMA as a trusted partner to the federal government.

These services, along with our DOMA Experience (DX) software platform, are designed to help support your organization's Digital Transformation journey. DOMA's DX platform is a secure, easy-to-use, Commercial-Off The-Shelf (COTS) product with a custom feel that meets ever changing project requirements. This proprietary platform is a SaaS solution architected on the Microsoft development platform and delivered through the Amazon Web Services (AWS) cloud framework. As a certified AWS partner, DOMA brings the unique expertise gained from 20 years of experience in software-based document management couples it with the infrastructure of the industry's leading cloud provider. DOMA on AWS gives federal customers more elastic options to expand, integrate other applications, or scale up without significant cost impacts.

### CORE CAPABILITIES

#### DIGITAL TRANSFORMATION

- Enterprise Content Management
- Data Engineering and Analytics
- Business Process Automation

#### IT MODERNIZATION

- Agile Software Development
- Application Modernization
- AI/ML/RPA Innovation

#### CLOUD SERVICES

- Cloud Strategy and Migration
- Cloud Operations
- Anything as a Service (XaaS)

#### SaaS Offerings

- Enterprise Content Management
- Portal Development
- Cloud-Native Applications

DOMA Technologies was founded in 2000 as a “cloud first” technology firm and is an AWS Select Consulting Partner and Public Sector Partner. DOMA has designed and deployed hundreds of customer application sites residing on AWS (including GovCloud) and has deep expertise with AWS and third-party services.

DOMA's offerings benefit from additional layers of security thanks to the AWS environment whose compliances and authorizations include:

#### Department of Veteran Affairs

	PROJECT	SERVICE	PROVIDED SOLUTION
Veterans Benefits Administration (VBA)	Private Medical Records (PMR)	Healthcare Information Management	DOMA provides highly visible digital transformation and development support for the VA's Private Medical Records claims process. We provide medical outreach; SaaS workflow automation and ingest portals; text extraction using machine learning; and predictive analytics and intelligence for over 50 VA offices and thousands of healthcare providers nationwide. We leverage REST APIs for real time communication and integration amongst external systems. Our automation capabilities expedited the claims process from 40 days to 12 days and has resulted in a 40% cost savings for the VA.
	Electronic Mail Management Services (EMMS)	Digital Transformation	DOMA developed and maintains multiple portals and integration connections that support the ingest and receipt of electronic mail submissions in support of Veterans, their families, and their representatives. Our development of secure portals and associated use of the VA Lighthouse API improves the consolidation of information and frees up VBA resources to assist Veterans in other ways to improve VBA's delivery of benefits. We receive electronic mail from VBA Regional Offices, other VBA entities, VBA partners, and directly from Veterans through seven different modalities.
Veteran Health Administration (VHA)	Patient Centered Community Care / VA Choice (PC3)	Healthcare Information Management	DOMA DX software platform serving as an ingest point and management mechanism for Veteran medical documentation and private provider artifacts.
VA Pittsburgh Healthcare System (VHA)	Financial Management	Digital Automation	DOMA DX software platform as well as off-site inventory management, scanning, indexing, quality control services of documents associated with the Finance and Research departments.

#### Defense Health Agency

Tricare	Medical Document Management	Healthcare Information Management	DOMA provides centralized intake of content via a cloud-based portal and REST API integrations in support of Tricare West Region's beneficiary enrollment, physician credentialing, and appeals/grievances processes. Using our proprietary SaaS platform, DOMA provides a workflow routing and distribution software platform for internal departments to automate the secure capture and data extraction of incoming healthcare related content from variety of external sources.
United States Navy	Defense Occupational and Environmental Health Readiness System (DOEHRs)	Public Health	Program management, system training, subject matter expertise, and technical support to the Navy and Marine Corps Public Health Center.

#### Department of Defense

Defense Finance and Accounting Services (DFAS)	Inbound Mail Handling	Digital Automation	Mailroom, Document Review, and Quality Assurance services facilitate the centralized retrieval, assembly, workflow, and secure transmission of 125+ different forms through our DOMA DX software platform.
--	-----------------------	--------------------	--

#### Department of Homeland Security

U.S. Immigration and Customs Enforcement (ICE)	Document Imaging and Translation Services	Document Management	DOMA provides time-sensitive, secure scanning, data extraction and metadata tagging, and translation to English of foreign language documents for Homeland Security investigations.
--	---	---------------------	---

# DOMA's Engagement with the Federal Government

DOMA has been a trusted partner of the Federal Government since 2000. We built the company with a focus on people, innovation, technology, integration and deep desire to solve complex problems. Our Federal past performance runs the gamut from smaller specialized projects to high volume, complex engagements.

## Cloud Leader in Compliance & Security

Our team is constantly in risk assessment mode. Data breaches, data loss, account hijacking, insecure APIs, denial of service, and malicious insiders are at the top of the compliance and security list of concerns and we prioritize efforts to mitigate those risks.
